MODULE TYPE

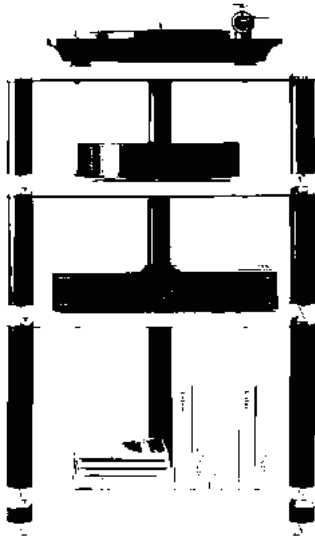

DESCRIPTION

The Copenhagen, Norstone's new modular furniture unit, stands out for its top-of-the-range construction and elegant design.

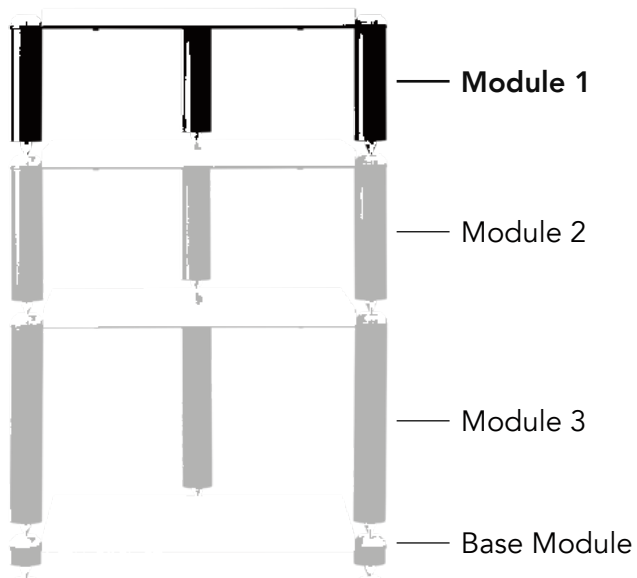

Comprising four modules of different sizes, it is perfectly suited to the needs of audiophiles looking for a solution that is both functional and aesthetically pleasing.

Its white oak tops add a natural, refined touch, while its solid metal frame ensures great strength and stability.

Each module is fitted with spikes and counter-spikes to eliminate unwanted vibrations. It's ideal for housing any Hi-Fi equipment, from amplifiers to vinyl turntables, while adding a modern touch to your listening space.

MODULE 1
